To: All County Welfare Directors

Letter No. 82-3

TEMPORARY CONTROL LOGS AND SHARE-OF-COST FORMS

The purpose of this letter is to remind the counties that for counties which have not yet implemented MEDS, the HAS 2007 (Temporary Card Control Log) must be submitted to the State on a weekly basis. As more Medi-Cal providers begin billing without attaching proof of eligibility labels (per AB 251, Section 100), it becomes more critical for counties to report eligibility information timely and accurately so that the eligibility history file can be kept up to date. Also, submitting the HAS 2007 weekly will help stabilize the Department's data entry workload.

In addition, the MC 177S (Record of Health Cost -- Share of Cost) must be sent to the State by all counties as soon as the county has certified that the share of cost has been met. Late submission of this form causes undue workload on the Benefits Review Unit and may delay approval of claims submitted by Medi-Cal providers to the claims processors.

If you have any questions please call your Medi-Cal program consultant.

Sincerely,
